

Product Owner B2C App m/f/d

- // Do you like AI / machine learning?
- // Are you interesting in sports and gaming?

Watching football is no longer just a topic for people interested in sports. The crowd is paying more and more attention on gaming - even spend money on it. That's why SOCIAL GAMING is worth to connect to live broadcasted football matches. GOALENT is running GOALBINGO.de as a Social Gaming Platform / -APP that is exclusively using live data of the ball and the goal on the pitch. GOALBINGO is a 2nd screen entertainment during live football matches, which will boost up amongst social media platforms.

GOALENT is inancially backed by a FIFA Licensed Goal Line Technology System, a former world class football player and todays football manager, an international gaming expert and an international Investment Group. We startup developing a disruptive mobile solution that helps app publishers all over the globe to generate more revenue. Our mission is to develop technologies that reach billions of smartphone and web users in a rapidly growing gaming market.

If you want to be part of the NEXT BIG THING in App Entertainment and work with some of the best people in the gaming industry, then go for it and send us your application!
